PLANT EXPLORATION  
AND INTRODUCTION  
Rec'd FEB 20 1935  
TREES  
NEW FLOWERS

SHRUB  
**SEED**  
*for the NURSERY*

FEBRUARY, 1935

TABLE OF CONTENTS

TREE AND SHRUB SEEDS .....Pages 2-12

*Including many new interesting varieties of Conifers, Azaleas and Rhododendrons received since our last list. Pyrus ussuriensis, Prunuses.*

FLOWER SEEDS .....Pages 12-20

*With many heretofore unlisted Irises and Lilys. Sakata's Lilium philippinensis formosanum and our famous Delphinium Belladonna and Wrexham wilt resistant Asters.*

VEGETABLE SEEDS .....Pages 21-23

*Specially selected for Plant Growers.*

BOOKS .....Pages 23-24

*Best latest titles.*

WHOLESALE ONLY

**HERBST BROTHERS, INC.**

AGENTS FOR T. SAKATA & CO., JAPAN  
92 WARREN ST. NEW YORK, N.Y.

## Terms

This list cancels all previous offers.

*Disclaimer:* We give for ourselves or our Principals no warranty, express or implied, as to the description, quality or productiveness, or in any other respect for the seed we deliver, nor will we be responsible for the crop in any way. In no case shall we or our Principals be held liable for more than the invoice value of the seed sold.

*Prices*—are f.o.b. New York.

*Weights*—net, packing extra at cost.

*Payment:* Our prices are calculated on a strictly cash basis; customers remitting with their orders will be allowed 5% discount. No accounts opened under \$10. When remitting please add for postage and packing.

We do not sell quantities smaller than those indicated.

Seed of Oriental origin is offered for account of Messrs. T. Sakata & Co., Japan's Leading Seedsmen. As their representatives in the United States and Canada you will always find us prepared to quote and assist you in locating seed originating in the Far East.

Scots Pine .... \$1.50 \$5.00

### HERBST BROTHERS' SPECIAL SCOT'S PINE

is the product of the most pains-taking tree-breeding in the last 200 years of practical forestry.

#### FOR STRAIGHT- GROWING TREES

**General Data:** These trees grow from 65 to 98 feet high and attain an age of 66 to 120 years. Knots usually on upper third of trunk—lower two-thirds clear. Needles 2 3-10 inches to 3 1-10 inches long—borne in very heavy clusters.

Color of needles: deep green from September to April—a trifle lighter from May to August.

Seedlings reach a height of 4 to 6 inches in first year—growth thereafter, 11 to 25 inches yearly.

#### It's Fast Growing and Good

Please remember that ALL "H. B. SPECIAL SEED" are gathered from trees—never from the ground.

The climber's equipment consists of: a half-bushel cone-bag slung across the shoulders; a light-weight 8 to 10 foot pole with a hooked end for drawing in the cone-bearing branches for ease in picking; and the usual lineman's climbers.
